

Administration may push for new fire millage

Canton voters may be asked to vote on a fire millage a third time in two years if information gathered by the Citizens Advisory Committee (CAC) shows there is support for such a measure in the township.

The committee was charged by Supervisor Robert Greenstein almost two months ago with investigating the need for and response to a "fire only millage."

Canton voters rejected a police-fire levy of up to three mills twice in 1974 by very slim margins. In August of 1974 they turned it down by a mere 25 votes and in November, three months later, they rejected the same measure by 276 votes out of approximately 4,700.

Canton voters may see a fire only millage on any one of three ballots in the coming year, if township officials sense there is a definite desire in the community for such a millage.

Voters may be asked to determine the fate of the measure in May on the same ballot as the presidential primary; in August with the township and county primary, or in November, on the general election ballot.

ONE THING SEEMS sure according to township treasurer Carl Parsell—there won't be a special election for the millage.

"Although I'd like to see work on a second fire station get under way immediately," he said, "I don't think it's feasible to ask for a special election."

"Even if we determine there's a definite need for the millage, we couldn't guarantee it would pass and we'd be charged then with wasting the taxpayers' money."

"It would cost us \$3,000-\$4,000 for a special election and we wouldn't even know if it would go up or down. I think we'd just be setting ourselves up for a lot of criticism."

Parsell, whose house recently suffered fire damage, added, "If the facts as I see them now don't change, I would hope that we could get this thing on the earliest possible ballot."

Parsell said there would be several differences between the millage he envisions in the future and the two that were defeated last year.

"The one defeated was a police and fire millage and this would be strictly a fire millage and it wouldn't be more than two mills. The last one was never publicized. People just voted on it. This time we will make every effort to educate the public before it goes to the electorate."

highest the levy could go would be two mills—and then probably only for several years.

"Of course," he explained, "Until the CAC reports back we don't really know what we have. But the figures I have presently indicate we would ask for two mills the first three years and then reduce it possibly to one mill—but that's contingent on the CAC's report."

"The money would be earmarked for fire improvements only and we wouldn't create a slush fund for money left over, we'd cut back the millage if it was possible."

He added, "Of course the key to the whole thing is how much it would improve our rating."

ACCORDING TO Parsell, creation of a second operating station would offset some of the cost to the taxpayers because the township's insurance rating would improve and homeowners could apply for fire insurance at a cheaper rate.

"We're rated at between 7-8 in areas where we have hydrants and between 9-10 where we don't. On a scale of 1-10 I'd have to say there's room for improvement."

Cost of operation of the current station is \$425,000 but Parsell said a second station, "operated at a bare bones" capacity would be considerably cheaper. He also said the cost of the building, based on Plymouth Township's cost of \$200,000 for a sec-

ond station, would be drastically smaller than the \$425,000 figure tossed around in earlier millage proposals.

According to Parsell's current estimates:

- The building could be had for about \$185,000.

- Additional land for two more sites could be had for less than \$60,000.

- Equipment for the station could be purchased for no more than \$100,000.

- Operating costs, although not yet determined would be much less than at the station currently operating.

"WE SHOULD PURCHASE the land right now for later stations because land certainly isn't going to get any cheaper. I don't want to get the

township in the position of speculating in real estate, but if we got land now (4-5 acres per site) for later stations and it wasn't the right location, we could trade with developers for the right sites. It would be a good investment."

The township hall could be expanded for a fifth site if necessary, the treasurer added.

Parsell stressed, however, that much of his figuring was speculative until the CAC was able to estimate what the operating costs would be for the second station—and that that would be determined on how the insurance rating would be changed.

He explained, "The real cost to the (Continued on Page 2A)

With emergency ordinance

Board OKs police reserve

By RICHARD GOLD

Law enforcement services in Canton should increase dramatically in several months when the township puts its first class of graduated auxiliary police officers on Canton roads in mid-summer.

The decision to form an auxiliary force as soon as possible was passed by the township board Tuesday when the Canton Township Board voted 7-0 to adopt an emergency "Police Reserve Officers" ordinance.

Although the decision to form an auxiliary police department had been made late in October, Tuesday's vote formalized that move and gave it top priority as an emergency measure.

"We tried to give the feeling that this is an important step for the township," explained Supervisor Robert Greenstein. "We also wanted those interviewing the candidates to have the backing of an ordinance. We really didn't want to say to these police officers doing the interviewing that 'Hey look, we don't really have an ordinance and you'll have to act in a vacuum.'"

"We wanted to avoid what has been done in the past—that is everything was so informal, it was never written down. We want this to be very formal."

ALTHOUGH A complete timetable for putting the reserves on the road has not yet been established, Greenstein said he expected officers to be on the road after they graduate from the reserve training program in "June or July."

The program is scheduled to begin Jan. 8 and it will involve 30 three-and-a-half-hour sessions for a total of 100 hours of training.

The school, located in Redford

per student, and each student will be reimbursed upon satisfactory completion of the course.

Township and sponsored by the Southeast Michigan Police Reserve Training Council, has 20 openings presently, and township officials should have no trouble filling them.

"We've already received a slew of applications," said Greenstein. "We have 75 applicants right now."

Greenstein, Clerk John Flodin and Treasurer Carl Parsell, a former police officer, will join with Police Chief Timothy Ford of the City of Plymouth, Chief Inspector of the Wayne County Road Patrol Dick Novak, officers from the road patrol appointed by Sheriff William Lucas, and Captain Al Stewart from Redford in processing and selecting among the candidates.

Although no pay scale has been established for the reserves, and no estimates concerning the cost of outfitting them has been made, Greenstein said the price of the reserves will be considerably cheaper to the township.

"The cost of starting a full-time police department is at least \$40,000 and we would be completely unable to do that."

The price tag on the school is \$15

MAXIMUM PAY for the reserves, according to Greenstein, will be \$2.50 an hour, although the supervisor said the township was toying with the idea of paying less, or contracting the (reserves) services out.

"A lot of what they'll be doing will be for other organizations like the schools and club or civic groups," said Greenstein. "We may ask the schools to pay for them when they are patrolling games, or we may ask the Jaycees to pay them when they patrol the Jaycee Fair."

"We'll bring this up at the interview level and see what the reaction is."

Greenstein added that the reserves might also be asked to pay for their uniforms and weapons depending on the response of the candidates during the screening process. "Initially we may find that they are willing to buy their own uniforms and weapons and that they may be willing to take a small amount of remuneration. Of course that may change as time goes on," he explained.

ACCORDING TO the supervisor, the main function of the reserves will be to back up the Sheriff's patrol, currently the main form of police protection in the township. He said they will be used primarily for school functions such as dances and games, and at community functions like fairs and carnivals.

The reserves will also be assigned regular patrols "in high crime hours" with township cars already equipped with radios and sirens. "We'll have them out between three or four in the afternoon until midnight or 1 a.m.," Greenstein said.

Although Greenstein was pleased with the idea of a reserve force, he did express some reservations. "Of course, I worry a little bit," he said. "I'd hate to see them become overzealous or use poor judgment and hurt themselves or someone else. That would be a tragedy. But that's a risk you run anywhere—with the CIA, the FBI, the Army or full-time police."

"But I think they're getting the best training available for what they'll be doing and we'll ask them to call in the Sheriff in rougher situations."

Icers Sweden-bound

The Plymouth midget and bantam hockey travel A teams left Thanksgiving Day for a 10-day trip to Sweden.

The coaches, parents and boys on the teams of the Plymouth Hockey Association converged on Metropolitan Detroit Airport about 1:30 p.m. Thursday. It was an exciting moment for the many parents who were on hand to see their boys off on the first big expedition of their lives.

The brothers and sisters, happy to get rid of their brothers for a 10-day period—were also sad to see them leave. The thoughts of some parents, left behind—that for 10 days they won't have to furnish transportation back and forth to hockey rinks.

IT WAS an ordeal, just as it is any major trip.

Checking passports, weighing luggage (and hoping that the boys' luggage and equipment were under the 44-pound limit) made the boys and parents both nervous—but they tried

not to show it. The last minute questions: "Do you have this... Did you think to bring that?"

The coaches instructions were to meet at gate five of Northwest Airlines at 2:30 p.m. There was more confusion and more well-wishing. Handshakes came from dad and kisses from mom, and silent but proud hero worship from the brothers and sisters—fighting to hold back tears.

The final farewells, the boarding of the plane, the waiting for the plane to take off, and finally the takeoff. Then the long walk back to the parked cars.

Then the return to a normal life, for a 10-day period with one fewer mouth to feed. For many, a late Thanksgiving feast.

The recollections of one father, Bill Murphy of Plymouth, on Thanksgiving after seeing his son off, was: "We experienced special thanks that we live in a world where young people can be granted such opportunity. That young

people can partake of the experience of living in a different culture, a different country and exchange ideas freely."

MONEY FOR the trip was raised during the summer and fall with the boys selling raffle tickets and bicentennial pins and some taking odd jobs.

The highlight of their visit will be an interview with His Royal Highness Carl XVI Gustaf, King of Sweden—a visit planned by the host team from Vasterhaninge.

The itinerary also includes a visit to the Wasa Ship Museum in Stockholm, a tour through a car-truck plant, an evening at the Johannesov Ice Stadium to watch two of Sweden's best hockey teams play, a visit to Ribby School to hear a lecture, and an evening at a discotheque called "The Egg."

The players will be guest of several (Continued on Page 2A)

School board grapples with special ed shortages

The existence of a waiting list for enrollment of learning disabled children in special education programs touched off a heated discussion at the last meeting of the Plymouth Board of Education.

A father reported to the board that his son had been identified as a learning disabled child but there was no room in existing LD programs and he had to be placed on a waiting list. He wanted to know why, because providing programs for the learning disabled is required by state law.

SUPERINTENDENT John M. Hoben said there are at least two children awaiting placement in the learning disabled program. Because the program is full, they are now being helped by classroom consultants.

Dr. Ed Page, director of special education, said the classroom program for the learning disabled is now at the maximum enrollment allowed by state law. Teacher consultants will be used to provide interim help to the youngsters, Page explained, until classroom space is available.

Page also has been directed by Hoben to write the State Department of Education and ask for a special waiver of the state maximums so the two youngsters can be placed in classrooms.

In the meantime, at least one parent has asked for a hearing as the first step in due process provisions provided for by law to parents denied access, for whatever reason, to special education training mandated by law.

THE DISTRICT presently has three classroom programs for the learning disabled, said Page, three classrooms for the emotionally impaired, and six for the mentally handicapped.

The present capacity—if state guidelines aren't waived—allows only for the state of a part-time student.

The State Department of Education and Wayne County Intermediate District have been consulted, Page says, and are studying alternatives which would allow deviation from the guidelines.

After hearing a summary of the problem, trustee Gary Mirto commented: "I don't think the law mandates that we create waiting lists. We just approved additional staff members two weeks ago and now find out we cannot meet special education needs required by law." (Mirto was referring to board action to offer full-time contracts to 10 teachers who had been working as permanent substitutes. That action was approved 4-3 with Mirto among the dissenters.)

Page answered that, as an administrator, he had made recommendations which required board action. He was referring to a recommendation to hire 26 additional persons in the special education department. The board, faced with the need to reduce the operating budget, decided to hire 20 instead.

"We passed the budget with the deletion of eight special education persons and the board was aware of that (Continued on Page 2A)

New listening center opens at Plymouth-Canton

A place for high school students to go to talk over their problems with a skilled listener opened today (Monday) in Plymouth Canton High.

The Student Service Center (SSC) also will serve students attending Plymouth Salem High.

The SSC is an extension of the high school guidance and counseling department. It is the outcome of three years of planning and work, which started with the DARTE (Drug Abuse Reduction Through Education) program of the Wayne County Intermediate

School District.

ALTHOUGH adult supervision from the adjacent office is constant, most of the work and initiative for the SSC came from students. The bright walls were painted by students and the fur-

niture donated by their families.

The SSC isn't a hangout, but a place where a student can find a willing peer listener. One of the 26 student staff members is available throughout the day to sit down with a troubled classmate.

Instruction in communication skills is essential for a good peer listener, according to one of the student leaders. They never give advice or suggest specific courses of action. Instead they have been taught ways to help the other person identify concerns and clarify difficulties.

IF THE PEER listener feels the problem needs more expert assistance, SSC co-directors Carla Garbin and Nic Cooper, high school counselors, are on duty in the next office. Across the hall is the school nurse, who also participated in developing the center.

Student staff members also are visiting most of the referral agencies in the area to become more familiar with other avenues of assistance.

By meeting individually with all the high school teachers, they hope to coordinate help for students with problems.

There are 38 SSCs in Michigan, including three in Wayne County. In Genesee County every high school has an SSC.

STUDENTS FROM Plymouth Salem and Plymouth Canton high schools attended the state conference on SSCs in Battle Creek Nov. 7-9. The Michigan Association of Student Service Centers (MASSC) was founded at that meeting.

Support for the SSC concept ranges from endorsement by the Michigan Department of Education to financial support and contributions from the student councils of both high schools at the Plymouth Centennial Educational Park.

"Most persons respond best to their peers, to someone not much older or younger," says Ms. Garbin. "With 3,800 students, and more enrolling all the time, this is one way to turn around negative peer pressure."

The Plymouth SSC has plans for continual evaluation of its activities. An advisory board of students, co-directors and parents of student staff members and any persons interested in joining, will assist in the evaluation. Expansion into classroom activities and a newsletter may be considered later.

New rec hall under utilized

Although Canton's new recreation facility on Michigan Avenue is getting plenty of use, there are still times when the building is empty—and township officials are grappling with a policy to get more use out of it.

"We run as many programs as we can now," explained Brenda Pollock, recreation director. "But we're under a tight budget."

The building, rented by the township, was renovated with more than \$20,000 from the federally funded block grant program, and provides a

great deal more space and equipment than the portion of township hall the recreation department used to occupy.

Opened officially Sept. 14, the building has been used by church groups, senior citizens, service clubs, and civic groups.

During the week, the recreation department runs a series of classes from modern dance to dog obedience training.

ON TUESDAY, the hall is let out at no charge to township groups for meetings and special functions. "We're pretty well booked for December because of the Christmas season," said Ms. Pollock, "but if someone wants to use the hall on Tuesday, all they have to do is call in advance and make a reservation."

"Right now, other than the recreation programs, we aren't getting that much daytime use. We'd like to expand our programs, but we don't have any more money and I have as much as I can handle right now. Our budget for next year is not much bigger," she added.

On Fridays the hall is used all day by senior citizens and on some Friday evenings the township schedules special entertainment for the seniors.

According to Pollock, anyone that lives in Canton or is in the Plymouth School District can use the building.

"Right now, the PTO of Miller School is putting together a program for students in the 45-15 program who are on vacation," Ms. Pollock said. "They meet once a week and have

things like magic shows."

She added, "What we're trying to do is avoid duplication of programs in Plymouth and the schools. That way we can get the most out of all of our facilities."

SINCE THE township lets the hall out free, and since the teachers of courses there are the only ones who are paid, the township makes no money on the operation of the new recreation hall.

But township officials are taking a

look at the possibility of renting the facility when it is idle. "We're wrestling with the idea," said Clerk John Flodin, "but historically it has always been used free by township groups."

"It's a situation we have to explore but it's one we have always resisted. It becomes a question of where do you draw the line. I think we'd like to avoid private use and keep it a community facility."

According to Flodin, the township will have a set of guidelines for use of the hall in the near future.

Plymouth man charged in death of his brother

A Plymouth man has been charged with manslaughter following the Thanksgiving Day death of his brother in Westland.

Carl Lee, 25, allegedly struck his brother Robert, 22, shortly after a wedding ceremony during which Robert was married.

Following the blow, police said, Robert bumped his head on a porch support pillar. The wedding reception was in the clubhouse of the Venoy Garden Apartments, 7107 Bonnie Drive, Westland. Robert was taken to Wayne County General Hospital, Westland, where he was pronounced dead.

Funeral services are today at 1 p.m. in Schradler Funeral Home, Plymouth. Burial is in Riverside Cemetery, Plymouth.

According to Westland Police Cpl. L.P. Goodlesky Jr., Robert was apparently pushed away when he attempted to intervene in a fight between Carl and another brother, Terry, 20. Only hours before, Robert had mar-

ried Sandra Niemi, 26, of Westland. The bride was present when the fight erupted, according to Westland police.

Westland Police Cpl. Emery Price responded to a complaint of a disturbance in the apartment complex at 2:40 p.m. There had been complaints earlier in the day, also. The Garden City Police Department provided back-up assistance.

According to the Wayne County Medical Examiner's office, Lee died of a head injury. Two other persons injured in the fracas, Donald and Susan Powell, of Westland, were treated at Wayne County General Hospital and released.

Carl Lee is scheduled for arraignment in 18th District Court, Westland.

Lee is the son of Mr. and Mrs. Charles Lee of Plymouth. He is survived by his two daughters, Kerrie and Monique; two sisters, Mrs. Philip Haynes and Mitzi, both of Plymouth; and three brothers, Carl and Terry, of Plymouth, and Van.

Shortages spark debate

(Continued from page 1A) and what it might mean," commented Marda Benson, board president.

Hoben commented that Page had said the 20 hires would "cover" the district but that might be some problems in mid-year "and that's what we are facing now."

Special education programs weren't 100 percent funded this year, Hoben added. "We budgeted in anticipation that state funding would pay for 85 percent of special education payroll—anticipating it would be less than 100 percent. We found out later it will be 75 percent."

Ms. Benson commented that the total board voted on the budget, including Mirto. "Yes, I voted on the budget," answered Mirto, "but we were assured that staffing would be adequate."

Trustee E.J. McClendon responded: "It is clear to me that everytime we cut in this budget some child will get something less than what is needed. I was well aware some child might not get the tools he needs to read or to do arithmetic."

Mirto replied: "It isn't the role of this board to take chances with children governed by rights under the law."

"Public education is mandatory in

this state—mandatory for everyone," answered McClendon, "and there are risks built in when the necessary money isn't available."

people will be the additional millage minus the reduced cost of insuring their homes."

Although no set date has been arrived at for completion of the study, the board moved Tuesday to expedite matters by passing a measure to have both the Michigan Fire Chief's Association and the Insurance Office of Michigan survey the township for fire protection needs.

They will report to the CAC which will in turn present all the pros and cons to the board for action.

Said (supervisor) Greenstein, "There's little question that we have a need for more fire protection in the township. But we have to get a feeling from the people. That will be the CAC's main function—to get a response from the people. They, as representatives of various portions of the township, will have a lot to say about a possible millage and I think any recommendation they arrive at will carry a lot of weight."

Practicing for next spring's recital is 4-year-old Jenifer Long, daughter of Mr. and Mrs. Gary Long of Canton Township.

Little Canton ballerinas strut their stuff at age 4

The pirouettes and twirls and pointed toes of ballet fill the Canton Recreation Hall each week, as tiny ballerinas, not yet in school, obey the French commands of their teacher.

"Changement," orders teacher Terry Megge, as the tiny four- and five-year-olds change their positions and mimic her graceful, sweeping gestures. "Position deux," and the pupil's limbs conform to ballet's second position.

"They try extremely hard," Mrs. Megge said of her youngest class of pupils. "Their span of attention is greater than you'd expect. They follow well and really pick things up."

The pre-schoolers are one of six ballet and tap classes sponsored by the Canton Recreation Department at the township recreation hall.

Mrs. Megge, who teaches all 52 of the budding ballerinas, is grooming her pupils for next spring's recital. Although four-year-olds through adults make up Mrs. Megge's classes, the pre-schoolers create the most chal-

lenging task. "It's probably a little more difficult teaching children," said Mrs. Megge.

Carrie Pyhtifa, 4, limbers up for her future roll as a ballerina. Carrie is the daughter of Mr. and Mrs. Gerald Pyhtila of Canton.

who has taught ballet, tap and jazz for 12 years. "But it's such a joy to teach them and so rewarding to see what they can do.

"I've never really encountered any problems," she said. "They're working toward the recital, and their interest is really great. They're so pleased when they learn something new."

To keep the pupils' interest, Mrs. Megge divides the hour-long class into tap, ballet and tumbling sessions, which helps grace and poise, she said. Dancers who appear on television often stimulate pupils' initial interest in dance.

"The ones who are truly interested will stick it out," she said. "They like dancing around the house, and they see it on TV. If a child doesn't like it, then her parents should take her out."

But most pre-schoolers enjoy the class, according to Mrs. Megge, especially when they don the pink and yellow costumes at recital time.

"At recital, the whole year's worth the work," she said.

Wintertime means

Think of your pet pooch

As you change your screens to storm windows and raise the temperature on your thermostat, Ray Sowards of the Westland branch of the Michigan Humane Society advises to give a thought to your dog.

"In most cases, it's perfectly all right for a dog to be kept outdoors during the winter months, if he is used to it," Sowards said. "The average dog

is able to acclimate himself to the weather, but on a gradual basis.

"Naturally, a dog that is indoors most of the time shouldn't be put out for too long on a cold winter day. And a dog with a heavy coat would be most uncomfortable if made to stay indoors all day."

Sowards, whose agency also covers Livonia, Redford Township and Li-

vonnia, stresses the importance of an insulator such as straw for a dog house.

"Clean straw serves as an excellent bedding and insulation for a dog house. The straw should be changed frequently.

Once it becomes wet, it loses its insulation qualities."

He added, dog houses should face south, since coldest winds generate from the west and north. A piece of old carpeting makes a good flap for the doorway to prevent drafts. Sowards' other suggestions include:

- Feed your pets more often to provide extra energy during winter months. Items like beef suet, meat or bacon drippings are good additions to a winter diet.
- Frequently check food and water which is kept outside to guard against freezing.
- Be alert for toxic snow melting substances which could make him sick and sting his paws.
- Put a sweater on your dog when you walk him.

"It's not a silly idea," Sowards said. "It'll keep him warm."

Other tips, including plans for constructing a doghouse, are included in a pamphlet entitled "The Care of the Outdoor Dog," available from the Michigan Humane Society. For a copy call the Westland shelter or write to the Humane Society, 7401 Chrysler Drive, Detroit 48211.

Don't leave your pet out in the cold this winter without proper acclimation. That's the warning from the Michigan Humane Society. While it may not be necessary to equip your dog with ear muffs, a sweater is recommended for winter walks.

The Little Red Hen

The fairy tale of the Little Red Hen seeking help to bake bread came to mind the other night during the meeting of the Plymouth Board of Education.

For those who've forgotten the tale, the morale is if you don't help gather wheat and mix the dough, don't ask for a slice when it comes out of the oven.

The tale came to mind while listening to trustee Gary Mirto making critical remarks about the lack of funding and space provided for special education programs.

The district is faced with a problem of having children on the waiting list who need to be placed in special education classes, which are at the capacity dictated by state law. The best option is to hire more staff and find classroom space—which costs money and is difficult given the present budget crunch.

MIRTO SUGGESTED someone in the administration had hidden from the board information that this school year the district might not be able to meet its obligations under the Mandatory Special Education Act.

Mirto further complained he wasn't informed, when the decision was

made to hire 20 additional special education persons instead of 26, that it might cause problems during the current year.

That might be true, but the reason doesn't lie in any mysterious plot in the administration to keep information from the board. The reason, quite frankly, is Mirto missed so many board meetings and budget study sessions during the budget preparation period, he can't possibly be fully informed at this stage in the game.

Other trustees who attended board meetings regularly, and found the time to attend special budget sessions, were aware of the possible implications of the budget decisions. Other trustees painfully went through the process of making decisions on where money had to be trimmed to balance the budget.

But Mirto avoided that painful process by "dropping out" and failing to meet his obligations to all residents of the district. He did manage to arrange his schedule to attend the meeting when the final budget was adopted, making sure his vote was recorded in the minutes when the roll was called. That's not much of an accomplishment, though, when stacked

up against the hours and hours his fellow trustees invested in the budget process.

THE FACT that Mirto dropped out doesn't forfeit his right to ask questions now.

If he is to complain about a lack of information, however, the least Mirto could do is publicly admit the reason he might be uninformed could have something to do with a lousy track record in attending board meetings and study sessions prior to adoption of the budget.

I could sense by watching that some board members were upset by Mirto's remarks, and well they might. But they politely bit their tongue, except to suggest that the information "hidden" from Mirto was known during the budget review process.

It must have been disturbing to them to have Mirto ask for a slice of bread—possibly larger than could be provided—after the loaf is baked even though Mirto wasn't around to plant the seeds, harvest the wheat, mix the dough or place it in the oven.

Mirto adopted a "no, not I" stance until his personal ego prompted him to apply some heat long after the loaf was baked.

Our Schools Today

Following is the first in a series of reports for residents by Florence Beier, administrative assistant for community relations of the Plymouth Community School District.

Challenges we have never known before are facing the Plymouth Community Schools today.

Pupil population has doubled in the last 10 years. In the same time period expenditures have multiplied five times.

NEW KNOWLEDGE about how children learn inspires us to vary our teaching methods.

Greater awareness of the needs of exceptional children means special ways to help them. Government rules and respect for justice both require action towards equality in instruction and employment.

Along with these positive aspects to the challenge come severe financial binds. Unfavorable economic conditions, combined with the low priority which state and federal governments are placing on funds for education, dictate our budget limits.

NO DOUBT about it—these are exciting times in our schools.

Plymouth Community School District encompasses an area of 54 square miles with five townships in two counties. From this region come more than 13,400 students, many of whose parents moved to the district in search of a good environment and schools for their children.

We have the potential for truly constructive involvement in schools. Perhaps the economic pressures which require local responsibility for the schools will enable us to make creative local decisions.

We believe the key to wise decisions is complete information. To help provide it, we will give background, details and interpretation.

For news and features, read your local newspapers and listen to Plymouth's high school FM radio station WSDP at 89.3. They are doing a good job of covering day-to-day happenings at school board meetings, in class activities and in sports.

THIS COLUMN will address questions on curriculum, philosophy, policy, finance, research, government programs, and other areas where in-depth experience is required. For example:

How does an open classroom differ from a traditional classroom?

What effect does the design of a building have on what happens inside?

What are the advantages and drawbacks of modular scheduling?

What is preschool assessment? How does it influence kindergarteners' learning?

Are PCSD schools overcrowded? How are we dealing with it?

What changes must we make to conform with guidelines on women's equity?

What happens in the PCSD warehouse?

What kind of political efforts does the school district make in Lansing and Washington?

How can the schools find out what citizens want from education?

THESE ARE just a few questions that concern all of us. And we need

some clear answers. The goal of this column is to provide as many as possible.

Although there are enough topics to fill a page a week for the next 10 years, we want to focus on areas of greatest concern to parents and other residents.

If you will send your questions to this column, *Our Schools Today*, Plymouth Community School District, 454 S. Harvey, Plymouth 48170, we will try to write a column responding in the near future.

CEP grads back system

Editor:

Your recent article on Concerned Parents left out a couple of details in its description of the scheduling system at Plymouth Centennial Educational Park (CEP).

Traditional scheduling wasn't mentioned. Ninth and tenth graders have the option of taking this type of scheduling, comparable to what the Concerned Parents want.

Structured scheduling wasn't mentioned. Parents of students who "goof off" can request this type of scheduling for their children. The students will be given definite things to do in their unscheduled time.

Also, about Mrs. Barbara Olson's comment that her son in college stays up until 1 a.m. studying because he didn't learn to study at CEP. I know college students from other districts who study until 1 a.m., and not because they don't know how to study.

I graduated from Plymouth Canton in 1975, after attending the CEP for three years. I believe most students benefit from modular scheduling and it shouldn't be abolished.

MICHELLE TREGEMBO
Aspen Drive
Plymouth

Editor: Scheduling options offered at the CEP were reported in previous articles but weren't repeated in every story written on the topic.

Editor:

As a 1975 graduate of the Centennial Educational Park (CEP), I'd like to voice my view of modular scheduling. Modular scheduling has benefited me in several ways. The change from

high school to college was much easier due to the preparation modular scheduling gave me. I'm much more comfortable in a large lecture class than my college friends are who came from traditional systems.

I can also budget my time better than they can because I was forced to discipline myself—they were forced to class.

These advantages don't pertain to students who aren't going to college. However, a majority of those students were on co-op programs or in vocational areas. These students also benefited from unscheduled time, which many of them used to their advantage in the auto shop or their job.

I've heard many over-inflated rumors of sex and drugs in the school due to the "free" time the students have. It's true that there are some drugs in the school—there are drugs in any school—but I never saw "open sex." These problems aren't the fault of modular scheduling—they are the fault of parents who don't even know their kids.

I've also heard parents complain about poor grades that their son or daughter has brought home. Sometimes it is the fault of a poor teacher and sometimes it is the fault of the student, but not the fault of modular scheduling.

I wish the Concerned Parents of the Plymouth Community School District would put their energy into screening out poor teachers, and giving some attention to their own kids instead of trying to remove a good system. I also wish someone would teach the students self-discipline instead of forcing the student to class.

Plymouth tenor gives Orpheus laughter, song

BY MARGARET MILLER

When the men of the venerable Orpheus Club of Detroit line up Friday, Dec. 5 for the second concert of their 75th anniversary year, George Murphy will be in his accustomed spot among the second tenors.

But what's remarkable about this

singer, a resident of Plymouth for the last six years, is that he too is celebrating an anniversary, his 50th in the organization of business and professional men who sound like full-time musicians when they blend their voices.

His 50 years in the Orpheus Club is the longest for any of its members,

and George Murphy holds another distinction among present and former singers.

He's become the organization's semi-official wit—the guy who has something to say to break the tension during a rehearsal like the recent ones to prepare for Friday's 8:30 p.m. sing in the Masonic Temple Scottish Rite Cathedral.

"LITTLE JOKES come to mind, and it makes them laugh in between songs," was how this 80-year-old singer put it. "I don't interrupt when we're working hard, and I've had several of our directors tell me they like it."

The other singers do too. One wrote, when Murphy was absent from several rehearsals and concerts because of the illness of his late wife, Marian, that "those Murphy choice words are missed."

Murphy and 30 other members of the elite group will be strictly serious musicians as they present their second of two yearly concerts Friday night.

The annual Christmas presentation will be for the first time under the baton of Dalos Grobe, officially the group's accompanist but taking over for current conductor Blaine Ballard because of the latter's illness.

Suzanne McAllister of Birmingham will be at the grand piano for the performance.

THE CONCERT will have another first—entry to the stage to the strains of a German song. "We're going to march in singing it as a round," Murphy said. "Learning to sing in German is something new to me."

But once on stage, the Orpheus men will continue their long-standing custom of opening with the Dutch folk song, "A Prayer of Thanksgiving, and the group's own arrangement of "Silent Night" will give the Christmas music its traditional finale.

GEORGE MURPHY, like other Orpheus members, is not a professional musician—he's retired after long service with Awrey Bakeries.

It was a dentist friend who first introduced him to the group half a cen-

Walter Musial of Livonia shows two of the paintings he did of scenes in the Traverse City area.

Art comes in oil, pine, metal, acrylic --and instant coffee

By ELINOR GRAHAM

"Under the Umbrella," a one-day art sale, will feature paintings and crafts of Three Cities Art Club members. Sale hours will be 9 a.m. to 7 p.m. Friday, Dec. 5 in the Plymouth Community Federal Credit Union building, 500 S. Harvey Street, Plymouth.

Twenty-three artists are contributing to the pre-Christmas sale. There will be hand-painted pine originals, metal sculptures, jewelry, weaving, macrame, pen and ink drawings and more than 40 original paintings.

Betty Manthey of Plymouth is exhibit chairman. A versatile artist who uses acrylics, oils, ink and watercolors, Mrs. Manthey has discovered a new medium—instant coffee.

She has numbered her instant coffee on fiber glass paper paintings. No. 12 will be at the sale. It was awarded first prize at a recent show in Brunswick, Ohio. Betty Manthey's macrame and driftwood creations show a touch of humor. A huge black spider of a macrame web is "Fargo." Each spi-

der, red or black, has a different name. "Nature's Mistake" is a two-headed owl with a single body.

THREE CITIES Art Club was formed more than 20 years ago by artists from Plymouth, Wayne and Northville. Its membership has expanded to surrounding areas and now has 50 professional and amateur artists.

Walter Musial of Livonia specializes in seascapes, landscapes and architectural oil paintings. He is a natural. His technique is flawless with the polish of years of practice. Yet Musial has been painting for less than three years and has had no instruction.

"I had been very ill," he explains, "and when I returned from the hospital my wife spread newspapers over our new gold carpeting, set up an easel and handed me some brushes and tubes of paint."

When he opened his first tube of paint it squirted over the easel, and over the protected area. His painting career began after he cleaned eight inches of paint from the gold carpet. Before his retirement, Musial had

worked on prototypes in styling for Ford Motor Company. He paints every day of his life and does his own framing. He leads another life as Mr. Magic, performing feats of magic for clubs, groups, scout parties and banquets.

DOREEN LAWTON makes jewelry, paints, spins and weaves. She likes to use a woven wallhanging on a wall with a painting to emphasize or bring out certain colors in the painting.

Mrs. Lawton has an unending supply of wool for her looms as she and her family raise their own sheep on their Canton Township farm.

Frances Wilson of Novi majored in art but didn't find much time to paint while raising her family. During the last 10 years she has painted seriously. She uses acrylics or oils and specializes in rural scenes.

"That is my annual aster painting," she said, referring to a floral which will be at the sale. "I love asters and paint them every year."

Doreen Lawton is donating a painting which will be given to someone attending the art sale.

tury ago, and the young man with the clear tenor voice thought then that singing with a group like that would be something close to heaven.

"I was so nervous when I auditioned, it's a wonder I could sing at all," he remembers. "But they took me in, and I memorized the whole pro-

gram for the next concert in four weeks."

In those days, he added, all Orpheus (Continued on page 2B)

Nursery offers kids fun, parents a price break

It's fun for the kids and economical for the parents. The children like the YWCA Nursery in Good Shepherd Reformed Church, 6500 N. Wayne, Westland, because there is lots to do and lots of friends to do it with.

Parents like it because it is run on the cooperative principle. Costs are

kept down to \$1.25 per session because the mothers work as teacher aids about once a month. According to Charlotte Hayes, program director for the YWCA of Western Wayne County which sponsors the school, the nursery is a place where middle class parents can provide a pre-school experience which they

could not otherwise afford. "These parents do not qualify for Project Headstart federal programs, yet they are feeling the pinch of the economic climate," she said. "We are able to provide a quality nursery program under the direction of a certified teacher," she said. "Because mothers turn as aids and provide the snacks, costs are kept down and the Y is able to underwrite additional expenses. Sixty-five per cent of the Y's funding is provided by the Torch Drive."

SESSIONS for three-year-olds are held from 9:30-11:30 a.m. Tuesday and Thursday, and the four-year-olds attend from 9:30 to 11:30 a.m. Monday and Wednesday.

There are now 26 children enrolled in the nursery which can accommodate 40.

As Mrs. Cindy Dunn of Canton Township enrolled her four-year-old son, she said, "Gary was in another nursery program, but we just couldn't handle the expense at this time."

"In addition, I didn't like the fact that I was discouraged from dropping in at the nursery or observing what was going on. By participating as an aide, I will automatically know what is happening, and Gary is tickled pink that Mommy is going to school with him."

"**THE BASIC REASON** for mothers participating is to give a quality program and keep costs down," said Mrs. Hayes. "But we find that it goes a long way in making the mothers more involved in the nursery."

Last session the parents of the children built a toy refrigerator, stove, and toy shelves. The Y donated a large climbing and slide toy.

The mothers become members of the Y for \$3.50 for the year and are entitled to numerous free and low cost activities ranging from a Christmas party to parent effectiveness training classes.

Mrs. Ellen Kronemeyer, mother of one of the pre-schoolers likes being involved.

"**IT GIVES ME** the opportunity to observe my child interacting with other children," she said. "When I'm here it's really a special time for both of us."

On the day of her visit, her child and others in the class were drawing pictures of the apples they had seen on a field trip to an apple orchard.

"Not that way as it so darned important," I asked our high school daughter as the BIG football game approached.

"I don't know," she came back, "but I do know I feel a little sick everytime I think of it."

I knew very well what she meant—I'd been having butterflies in each of the last three years as the two Big Ten leaders met at the end of the season, each time the result of the game could mean a Rose Bowl trip for the member of our family who also is a member of her university's marching band.

THIS YEAR she's a senior so it was

now or never. Her father had confided at the beginning of the season that he'd be glad when he could again just watch good football games instead of feeling so personally involved. I couldn't have agreed more.

Well, we had sweated through an up-and-down season, and now it was time again for the big one. And as everyone knows by now, our guys lost.

OUR BANDSMAN, fiercely loyal as she is, took it with good grace and declared it was only a game and she intended to enjoy the Orange Bowl game and trip.

I think the moment was worst for

me when she related that the band members had been prepared with roses to stick in the hats of their new uniforms and "California, Here I Come!" in their music folders.

But it was over, and I announced with relief I'd never again care as much about a football game.

AND THEN our youngest had something to say about that.

"How about when I'm in the band?" she wanted to know.

You know, I think I'll face that when I get to it. Right now, I'm not a bit sure the old adrenalin will be able to take it.

—Margaret Miller

(Continued from page 1B)
The club has had members from many professions—including physicians, lawyers, policemen, university professors and businessmen—and the current roster includes Robert Hund, an advertising executive who lives in Farmington, and Gary Sarut, who is teacher and counselor at Bryant Junior High in Livonia. Another Livonia member is Robert Stoner.

FOR GEORGE MURPHY, probably he greatest thrill as a member of the Orpheus Club came when the group journeyed to New York for an inital performance in Carnegie Hall just after he joined. "Just before I got in," he recalled, "the boys went to Buffalo for a competition, and they took second instead of first because they didn't know there was a rule against whistling as part of the music." He can recall only two occasions when the Orpheus Club "blew it" during a performance. "Once," he remembers with a chuckle, "was a time when the man with the pitch pipe was a substitute and he gave us a note too high at the start of 'Silent Night.' "Before we knew it, the tenors were up to high C and we had to start over," he said. "The other time, we went to Canada for a concert and sang 'The Irish Grenadiers' and somehow or other we blew it. It was the wrong time to do that—the people there know that song by heart."

MURPHY ISN'T SURE how long he'll continue to sing—"It seems to me they need younger voices but they keep telling me my voice belongs in the group"—but for the duration he makes a weekly trip to Detroit's First Congregational Church for rehearsals. Recently, he said, he's been driving to Stoner's Livonia home and going the rest of the way with him. And even some recent dental work

won't keep him out of the anniversary concert. "I told my dentist I might be whistling," he said, "but I guess I'll sing instead."

Hearing is scheduled in Brown death

A 22-year old Taylor man faces examination on murder and armed robbery charges Friday in connection with the Nov. 7 fatal shooting of Livonia car dealer William A. Brown. Brown was a 30-year resident of Birmingham.

Scott Fabian of Taylor was arraigned last week in 52nd District Court (Third Division), Rochester, on charge of first degree murder and armed robbery. He is being held in Oakland County jail.

A sheriff's department spokesman

said additional arrests are expected in connection with the shooting at the Brown farmhouse in rural Oxford Township.

Brown was shot once in the head while chasing three robbers from the home shortly after midnight Nov. 7, police said. Brown fired two shots after being awakened by the intruders, according to police.

Brown, 68, of 916 Suffield, Birmingham, was the owner of Bill Brown's Ford, 32222 Plymouth Road, Livonia.

Student is killed in crash

Brian Gates, 21, Western Michigan University student from Livonia, was killed Friday in an auto accident at Kalamazoo.

Gates and three friends were returning home from an evening outing when their car left the street and hit a tree. Gates, who was driving, was killed instantly. The others suffered minor injuries. The accident happened about 2 a.m.

Gates was the son of Mr. and Mrs. Fred Gates of 14489 Alexander Drive.

He was a 1972 graduate of Bentley High School where he was active in sports, as guard for the basketball team and quarterback for the football team.

Passengers injured in the mishap were Joe Petroski of Redford Township and Mike Withey and Mike Stevens, both of Ann Arbor according to Gates' mother. All are about 21, she said.

Besides his parents, Gates is survived by two brothers, Larry and Doug, both living at home; three sisters, Mrs. Flora Ackling of Dearborn Heights, and Candi and Cheryl, both Bentley High students; his grandmother, Mrs. Flora Morgan of Livonia; and his grandfather, Fred Gates of Northport, Fla.

Funeral services were held Monday at St. Paul Presbyterian Church with Rev. William Whitledge officiating. Burial was in Memorial Gardens.

Bingo parties

Bingo parties to benefit St. Jude Children's Research Hospital will be held Mondays from 11:45 a.m. to 3 p.m. in Ever Seven Sportsman's Club, 27531 Grand River, Livonia.

New voices

Mr. and Mrs. Frank Fsadni of Berry Street, Westland, announce the birth of their first child, a son, Patrick Francis, on Nov. 1 in Providence Hospital, Southfield.

Patrick's grandparents are Mr. and Mrs. George Rowland of Northville and Mr. and Mrs. Louis Fsadni of Vero Beach, Fla.

It pays to know a DETROIT BANK-er better.

"You can actually write yourself a loan by writing a check."

One of life's more frustrating moments occurs when your checkbook balance is insufficient to cover a planned purchase. Now there's a way to write yourself a loan by simply writing a check as we learned by talking with Mike Robinson, Manager of the Grand River-Middlebelt office of Detroit Bank & Trust.

How can I write myself a loan?
"With Ultra/Chek at Detroit Bank & Trust, you simply write a check for the full amount you need to make a particular purchase or to give yourself extra money whenever you need it. Ultra/Chek is a personal line of credit of at least \$500 which you can use by intentionally or accidentally overdrawing your Detroit Bank & Trust checking account by \$5 or more. With Ultra/Chek, your checks are good regardless of the balance in your

checkbook as long as you don't exceed your line of credit."

Can Ultra/Chek keep my checks from "bouncing?"
"Yes. Many people use Ultra/Chek not only to make planned purchases, but to protect against "bouncing" a check. Of course, we encourage our customers to keep their checkbook in balance, but anytime you write a check that overdraws your account, Ultra/Chek will cover it up to your line of credit."

How much does Ultra/Chek cost?
"There are no charges whatsoever until you actually use your Ultra/Chek line of credit. Once you do the finance charge is lower than many installment loan plans or charge card transactions. Once you activate your Ultra/Chek line of credit, you'll receive a

statement each month showing the amount borrowed, interest charged, total owed, minimum payment due and the amount of credit still available to you."

How can I get Ultra/Chek?
"Sit down with any DETROIT BANK-er at Detroit Bank & Trust and fill out an Ultra/Chek application. Easy-to-use, convenient Ultra/Chek protection for your checking account is another reason why you ought to know a DETROIT BANK-er better."

"With Ultra/Chek you can actually write yourself a loan right from your checkbook!"

"Anytime you write a check that overdraws your account, Ultra/Chek covers it up to your line of credit."

"Ultra/Chek is one of those helpful services you find out about when you get to know a DETROIT BANK-er better!"

John Glenn's George Roberts, 41, floats down to the floor after canning a layup Friday against Garden City West while Tiger defenders, Mike Susko, 33, and Don Frank, 31, buffer his fall, and Dave Niles, 11, looks on.

GC West mows down Glenn

By DOUG FUNKE

After a close first half Friday night, Garden City West made a few defensive and offensive adjustments which powered the Tigers to a 67-53 decision over Westland John Glenn.

Even though the victory was the Tigers' second straight in the 1975-76 basketball campaign, coach Chris Babler said he was not particularly pleased with his team's performance against the Rockets.

"I thought we executed poorly. We weren't moving the ball to the open man," analyzed Babler.

JOHN GLEN used a tandem 2-3 zone in the opening half to pretty much stifle the potent West offensive attack, as the Tigers led at intermission by only a 23-22 count. However, the Rockets were having their own difficulties breaking into the scoring column during the initial 16 minutes even though John Glenn had the home court advantage.

The Tigers employed a tighter defense in the second half and at the same time, loosened up their offense which enabled them to forge ahead 43-37 after three quarters and coast to a 67-53 win.

John Glenn coach Gordon Davis said he was proud that his relatively young and inexperienced team was able to hold one of the area's best in check until the final few minutes.

"Mistakes hurt us again tonight,"

Davis stated, "but that's the only way to learn. We played good defense, but we didn't shoot too well and had too many turnovers."

"OVERALL," Davis continued, "I had to feel that my boys scrapped hard and were right in there until the fast three minutes."

Davis indicated that one big key to the outcome was the fact that Dan Diadiun, a Rocket sparkplug, fouled out of the game early in the fourth period after connecting for 12 points.

"We were only down by six after three quarters," Davis said, "but they (West) went to the free throw line a lot near the end." In fact, the Tigers

attempted 23 foul shots during the contest and sank 13.

Mike Susko, the big West center, led all scorers with 22 points, while Dave Niles added 20 points and Tom Poole pulled down eight rebounds.

In addition to Diadiun's 12 points, Glenn's Todd DeLuca chipped in with 10 and George Roberts recovered 13 rebounds.

West is now off until Friday, when the Tigers travel to Southgate for their Tri-River League opener. West reigned as league co-champions last season with Melvindale.

John Glenn, meanwhile, will try to regroup after two consecutive losses and break into the win column at Ink-

ster Cherry Hill tomorrow (Tuesday) night.

Borgess cagers advance

The girls from Bishop Borgess had one of those phenomenal nights last Wednesday when everything came up roses offensively and defensively, as the Spartans buried previously undefeated Ferndale 68-52 to win the Hazel Park district of the girls' state basketball tournament.

Bishop Borgess advances to the Livonia Stevenson regional tomorrow, taking on Southfield-Lathrup in first-round elimination play at 8:15 p.m.

THE SPARTANS jumped out to a 12-7 first quarter lead against Ferndale, then switched from a zone to a

full-court pressing defense to throttle the Eagles over the next two periods.

At the same time, Borgess turned on the afterburners of its high-powered offense to outscore Ferndale in the second and third quarters 27-5 and 21-10 to wrap up the contest.

Bishop Borgess coach Kathy Collins cleared her bench during the final period, but the Ferndale regulars remained in and continued to chip away at the deficit, eventually narrowing the gap to 68-52 at the final buzzer.

"It was one of those nights when everything we put up to the basket would go in and everything they

tossed up would bounce off," Collins assessed.

"WE PLAYED a terrible game earlier against Redford Union and almost blew it," she continued. "I think the girls were determined to play much better against Ferndale."

The victory upped Borgess' season mark to 15-2, and the Spartans' coach said that aside from the RU contest, her charges have been playing some of their best ball of the season lately.

Mary Kay Itnyre led all scorers in the Ferndale game with 20 points on seven field goals and a perfect 6-6 night at the foul line, while teammate Sue Janus joined her in double figures with 14 points.

Three of the five Ferndale starters, led by Mary Carter with 13 points, scored in double figures, but it was a case of too little, too late as the Ferndale Eagles were bounced from the tourney, suffering their first and only loss of the year to an aggressive contingent from Bishop Borgess.

Panthers survive

The Garden City East Panthers, victims of the bobbles and a case of over-confidence, managed to put enough together Friday night to eke out a 51-50 verdict over a spunky Inkster Cherry Hill.

The contest was nip and tuck for the entire 32 minutes of play, as East led most of the time by a margin of six points or less, while the pesky Spartans stayed close and even managed to lead by a point or two near the middle of the game.

"Let's just say that we disappointed ourselves tonight," said a relieved Billy Joe Young after his Panthers escaped with the win in their opening outing of the campaign.

"WE HAD a horrible case of the jitters and a bad case of being over-confident. We sure didn't have execution, as we just didn't get our assignments down," Young added.

East held a slim 12-10 lead after first quarter play, and managed to hold on to a tenuous 26-25 margin at halftime. Both teams matched scoring in the final two periods, counting 10 and 15 respectively.

The Panthers held tight to 49-48 advantage in the final 30 seconds, and more importantly, had tight possession of the ball. Cherry Hill was forced to foul to gain possession and generate a final offensive thrust for the equalizing or winning points.

East's Jim Riley, a standout during the recently concluded football campaign, calmly stepped to the charity line and sank a pair of free throws with only 20 seconds on the clock to ice the win.

GC East, Borgess ready squads for regionals

Only two area teams—Garden City East and Redford Bishop Borgess—advance this week to the regional portion of the 1975 girls' state basketball tournament.

East, winner of the Dearborn Heights Annapolis District, meets Detroit Denby Wednesday at Rochester Adams, while Borgess, conquerors in the Hazel Park District, faces Southfield Lathrup tomorrow (Tuesday) at 8:15 p.m. at Livonia Stevenson.

Salem beats Central stall

Walled Lake Central let it be known from the opening tip-off that it had no desire to engage in a run-and-shoot contest with Plymouth Salem's basketball troops when they met Tuesday in the opener for both clubs. Despite the slowdown tactics, Salem posted a relatively easy 50-31 victory.

Central's Vikings set the night's pattern when they turned to a keep-away offense and refused to shoot for almost two minutes after gaining possession on the opening tip.

Coming off a 22-3 record last winter which carried them to the state Class A semifinals, the Rocks edged ahead 8-6 in the opening period behind the sharp shooting of all-state candidate

Jim Ellinghausen. Three buckets by Howard Inch then helped boost Salem to a 20-10 halftime margin.

The 6-8 Ellinghausen cut loose for six baskets in the third quarter, winding up with 24 points to take game scoring honors, and at the three-quarter pole Plymouth was in complete command with a 34-16 lead.

Coach Fred Thomann cleared Plymouth's bench which turned into a parade to the foul line for both clubs. Inch, with 11 points, was Plymouth's only man beside Ellinghausen to score in double figures. Mickey Yeager was high for Central with 11.

Tuesday night the Rocks will be out to extend their three-year home court

winning streak to 19 straight when they host Livonia Franklin in another non-league test.

Canton sees Mercy might

Even though Plymouth Canton was eliminated last week in the district finals of the state girls' high school basketball tournament, coach Mike McCauley had nothing but praise for the team which compiled a 14-5 record in only its second season of competition.

"We're really a young team that never quit," a proud McCauley assessed after the Chiefs had been bounced from the tourney 62-29 by perennial Catholic League powerhouse Farmington Our Lady of Mercy.

"We have a pretty good team," McCauley continued, "but we're small and we may have been a little too tight for the Mercy game."

The girls from Farmington out-pointed Canton 22-7 in the opening quarter, raced to a 39-9 halftime lead, then continued to outscore the Chiefs in each of the final two periods to advance to regional play this week.

McCauley saluted Mercy for its victory, saying that it will likely win its way at least to the quarter finals, and probably all the way to the state finals.

"Fundamentally, they're very quick," McCauley said.

The key to the district title game, according to the Chiefs' coach, was the superior defensive effort turned in against Canton by Mercy. Additionally, McCauley said that his charges missed several shots close to the hoop which further took them out of business.

Everyone on the Mercy roster saw action in the rout. Twelve of the 14 Mercy players, paced by K.D. Harte

with 16 points, broke into the scoring ledger.

Kathy Sochacki and Cindy Krieg led Canton scorers with nine and seven points respectively.

Canton's Cindy Krieg comes up with the ball; but her team couldn't come up with the district crown.

Redford Union opens campaign with win

Redford Union successfully solved the riddle of Southfield's full-court press and received balanced team scoring Tuesday night en route to a 71-62 conquest of the visiting Blue Jays.

"They pressed us the whole game," said RU coach Carl Andrews, "but I was pleased with our balanced scoring, our aggressiveness and our good man-to-man defense."

The Panthers held the upper hand over Southfield 19-14 after the first quarter, but the Blue Jays pecked away in the second period to narrow the intermission gap to 35-31.

RU tightened its defense during the third quarter, allowing Southfield seven points while popping in 16 itself to pull away.

Pacing the Panthers' scoring attack were Gary Stafford with 16 points, Steve Schultz with 14 and Tom Sweeney with 13.

Andrews noted that he was especially pleased with the performance of reserve forward John Gazley, who notched eight points in the final quarter after coming off the bench to replace Jim LaLonde, who was in foul trouble.

Inexperience probably cost Westland John Glenn a victory in its basketball season opener Tuesday, as Taylor Kennedy hit a pair of foul shots late in the game to ensure a 50-47 win.

The Rockets lack of experience showed in the first quarter, when Glenn couldn't cope with a half-court press. The Rockets managed only eight points the opening eight minutes and continued to trail at the half 24-17.

Glenn outscored the Taylor contingent 20-10 during the third quarter to forge to a 37-34 advantage, and led by one with under a minute to play.

However, the Rockets missed on an offensive attempt, Kennedy scored to move ahead, Glenn missed on another field goal try, then fouled a Kennedy man in a vain attempt to steal the ball.

The Eagle proceeded to can both ends of a one-and-one attempt to seal the win.

"I thought we played well enough to win," surmised Gordon Davis, the Rockets' coach. "I was pleased the way the kids could get back into the ball game and with their aggressiveness on defense and on the boards in the second half."

Garden City West started slowly Tuesday in its basketball opener against Wayne, but once the Tigers got rolling, there was no stopping them, as West prevailed 75-53.

The Tigers scored only nine points in the opening quarter because of a combination of poor shooting and a tight Wayne defense. After Wayne took a 13-9 second period lead, West went to the press, completely shutting down Wayne's offense.

The Tigers countered with eight unanswered points and never fell behind the rest of the way. West outscored its opponent in each of the final three quarters—23-16, 19-13 and 24-15—to successfully launch what is expected to be a good season.

"I was pleased generally with our ability to get over our early jitters and I thought we ran our offensive patterns much better in the second half," commented West coach Chris Babler.

Dave Niles and Mike Susko, whom many anticipate will guide the Tigers this season, connected for 17 and 18 points respectively, while Terry Bradley added 17.

TOWNSHIP OF PLYMOUTH WAYNE COUNTY, MICHIGAN ORDINANCE NO. XLIX

AN ORDINANCE RATIFYING THE ESTABLISHMENT OF THE TOWNSHIP OF PLYMOUTH WATER AND SEWER SYSTEM; SETTING RATES AND CHARGES FOR BENEFITS, SERVICES AND PRODUCTS OF SAID SYSTEM; PROHIBITING UNAUTHORIZED CONNECTIONS OR CROSS-CONNECTIONS TO SAID SYSTEM; PROVIDING FOR THE ENFORCEMENT AND OF PENALTIES FOR THE VIOLATION OF THIS ORDINANCE; SAYING AND REPEALING OF CERTAIN ORDINANCES; AND PROVIDING FOR THE ADMINISTRATION OF SAID SYSTEM.

THE TOWNSHIP OF PLYMOUTH ORDAINS:

Section 1 Pursuant to the provisions of Act 207 of the Public Acts of 1953, as amended, being Sections 41.871, et seq., C.L. '48, of Act 116 of the Public Acts of 1923, as amended, being Sections 41.411 et seq., C.L. '48, of Act 342 of the Public Acts of 1939, as amended, being Sections 46.171, et seq., C.L. '48, of Act 185 of the Public Acts of 1957, being Sections 123.731, et seq., C.L. '48, of Act 188 of the Public Acts of 1954, as amended, being Sections 41.721, et seq., C.L. '48, of Act 266 of the Public Acts of 1929, as amended, being Sections 338.901, et seq., C.L. '48, of Act 230 of the Public Acts of 1972, as amended, being Sections 125.1501, et seq., C.L. '48, and of Act No. 98 of the Public Acts of 1913, as amended, Sections 125.201, et seq., C.L. '48, the Water and Sewer System of the Township of Plymouth as provided in Ordinance Nos. XVI, XIX, and XXI, as amended, is hereby ratified and reaffirmed, for the purpose of providing water and sewer benefits and services to the persons and property of the Township of Plymouth, and the protection and preservation of the public health, safety and welfare.

Section 2 In construing this Ordinance, the terms and words hereinafter defined, unless the context clearly establishes otherwise, shall be given the following meanings:

SYSTEM shall be construed to mean the Township of Plymouth Water & Sewer System and all sewage disposal or water supply and distribution facilities, or both, owned, operated or maintained by the Township of Plymouth, including, but not limited to, sanitary sewers, combined sanitary and storm sewers, storm sewers, water mains and lines, wells and all works, instrumentalities and properties used or useful in connection with the collection, treatment or disposal of sewage or storm waters or the supply, treatment and distribution of water.

WATER BONDS or SEWER BONDS, or both, shall be construed to mean any and all bonds issued by the Township of Plymouth for paying the cost of construction, maintenance or operation of the Township of Plymouth Water & Sewer System.

WATER CONTRACT or SEWER CONTRACT, or both, shall be construed to mean any and all contracts executed by and between the Township of Plymouth and any other governmental entity or agency for the purpose of effecting the uses and purposes of the Township of Plymouth Water & Sewer System.

TOWNSHIP BOARD shall be construed to mean the Township Board of Trustees of the Township of Plymouth, Wayne County, Michigan. TOWNSHIP shall be construed to mean, the Township of Plymouth, Wayne County, Michigan.

Section 3 This Ordinance shall be known and may be cited, amended and supplemented as the "Water & Sewer Utility Ordinance of the Township of Plymouth."

Section 4 The System shall have an operating or fiscal year commencing on April 1st and ending on March 31st of each year.

Section 5 The rates and charges for the services and benefits provided by the System shall be as prescribed from time to time by the Township Board. The rates and charges shall be as follows:

WATER RATES

Applicable to each premises having any connection to the water mains of the System.

A. Consumption Rate

The consumption rate shall be @ 42 cents per one thousand (1,000) gallons.

B. Quarterly Service Charge (In addition to consumption rates)

Table with columns: Meter Size, Service Charge. Lists rates for various meter sizes from 3/4 inch to 10 inch.

C. Minimum Quarterly Water Rates

Table with columns: Meter Size, Minimum Quarterly Rates (incl. serv. charge), Gallonage allowed. Lists rates for various meter sizes and allowed gallons.

D. Water Tap Charge

The Tap Charge shall include tapping into the water main, installing Type K Copper Tubing to lot line with a curb box and furnishing and installing a meter in the building. Tap Charges and/or Meter Charges shall be paid before building permit is issued.

Table with columns: Size of Service, Size of Meter, Rates for various sizes (0'-60", 61'-86", 87'-120", 121'-204").

Rates for larger sizes or lengths or both shall be computed on request and charged as applicable. A permit for such taps shall be obtained in advance from the Township, and the property owner or user making such tap shall pay any inspection charges now or hereafter established by the Township prior to the use thereof.

E. Water Benefit Charges

- (1) Water Benefit Charges shall consist of two (2) parts, a Front Foot Fee and a Trunk & Transmission Fee. a. The Front Foot Fee shall be \$2.00 per front foot of the premises to which water is to be supplied as measured by the legal description thereof upon the tax rolls. In no event shall the Front Foot Fee for single-family residential be less than \$120.00, nor more than \$600.00. Residences constructed on lots which were incorporated as such on a plat of a subdivision subsequent to January 1, 1955, shall not be subject to the Front Foot Fee provided the subdivider or developer constructed the water main. A subdivider or developer shall pay the Front Foot Fee based upon the front feet of the subdivision or development premises prior to the start of development. b. Water Trunk and Transmission Fee for taps to the Water system shall according to the following chart:

Table with columns: Type of Use, Amount, Dwelling Use Factor. Lists various types of buildings and their respective water rates and factors.

Table with columns: Type of Use, Amount, Dwelling Use Factor. Lists various types of buildings and their respective water rates and factors.

Any use not specifically covered by the above types shall be determined by the Supervisor in conjunction with other Department heads, with final ratification by the Township Board.

Additions to existing facilities will be subject to an additional Trunk and Transmission Fee when applicable per above chart.

(2) Water Benefit Charges both Front Foot Fee and Trunk & Transmission Fee, for existing single family residences may be paid in time payments of a minimum of \$10.00 per quarter (\$40.00) per year or larger payments if required in order that the debt will be paid in full in a maximum of twenty five (25) years. Such time payment charges will be referred to as Water Debt Service.

(3) Water Benefit Charges for all new residential construction shall be paid in full when making an application to connect and shall be paid prior to the issuance of a building permit by the Township.

(4) Water Benefit Charges for Industrial, Commercial, Churches and Schools may be paid on a quarterly basis within a ten (10) year period. Such time payment charges will be referred to as Water Debt Service.

(5) Notwithstanding the foregoing provisions of Section 5E, Water Benefit Charges, (1), (2), (3) and (4), all Water Benefit Charges pursuant to prior Ordinances which are outstanding as of the effective date of this Ordinance shall continue in effect and be paid and governed by such prior Ordinances, and the same to such extent are hereby saved from repeal by the enactment of this Ordinance.

F. Fire Hydrant Rates

For Water used through fire hydrants for fire protection and other purposes the Township shall pay in during each fiscal year the sum of Five Dollars (\$5.00) for each fire hydrant.

SANITARY SEWER SYSTEM RATES

These rates are applicable to each premises making a connection or having any connection to the sewage system.

A. Sewage Disposal Use Rates

Such rates shall be levied on each lot or parcel of land, building or premises now or hereafter having any connection with the sewers of the system. Such rates shall be billed along with the water bill and shall be based on the quantity of water used therein or thereon, as the same is measured by the water meter installed therein (if there is such a meter), and shall be as follows: The sewage disposal rate shall be \$28 per one thousand (1,000) gallons of metered water used quarterly.

B. Minimum Quarterly Sewage Rates

Minimum quarterly sewage use rates shall be:

Table with columns: Meter Size, Minimum Quarterly Rates, Gallonage Allowed. Lists rates for various meter sizes.

C. Single Residences Unmetered Water

For single residences having unmetered water supply the rate shall be \$40.00 per year billed at the rate of \$10.00 quarterly, and for each trailer in a trailer court having an unmetered water supply the rate shall be \$40.00 per year billed at the rate of \$10.00 per quarter.

D. Special Rates

Where sewage disposal service is furnished to users other than single residences or trailers not connected to the water system, or if connected to the water system no meter is used to measure the quantity of water used, or in cases where users make use of large quantities of water which may be discharged into storm sewers, or for other miscellaneous users of water for which special consideration should be given, special sewage disposal rates may be fixed by the Township Board. The Special Rates will depend on the Sewer Use Regulations including all changes of the Waste Control Division as prepared by the Board of Wayne County Road Commissioners and the Wayne County Board of Public Works and will be a minimum of those charged by Wayne County plus 50 per cent overhead.

E. Sewer Connection Rates

Where "T" or "Y" connections are made with or without risers at or near a front, side or rear property line the connection fee shall be paid as computed based upon the nearest street adjacent to the front of the principal building on the property in accordance with the following schedule:

Table with columns: Street Right-of-Way, Connection Fee. Lists rates for different street widths.

Where there is no connection available or it is required to go under the road for the connection the owner shall have his contractor make the connection for only the inspection fees to the Township.

F. Sewer Benefit Charges

(1) Sewer Benefit Charges shall consist of two (2) parts, a Front Foot Fee and a Trunk & Transmission Fee. a. The Front Foot Fee shall be \$4.00 per front foot of the premises to which sewer service is to be supplied as measured by the legal description thereof upon the tax rolls. In no event shall the Front Foot Fee for a single family residential be less than \$240.00 nor more than \$800.00. Residences constructed on lots which were incorporated as such on a plat of a subdivision subsequent to January 1, 1955, shall not be subject to the Front Foot Fee provided the subdivider or developer constructed the sewer mains. A subdivider or developer shall pay the Front Foot Fee based on the front feet of the subdivision or development premises prior to the start of development. b. Sewer Trunk and Transmission Fee for connections into the sewer system shall be according to the following chart:

Table with columns: Type of Use, Amount, Dwelling Use Factor. Lists various types of buildings and their respective sewer rates and factors.

Table with columns: Type of Use, Amount, Dwelling Use Factor. Lists various types of buildings and their respective sewer rates and factors.

Any use not specifically covered by the above types shall be determined by the Supervisor in conjunction with other department heads, with final ratification by the Township Board. Additions to existing facilities will be subject to the additional trunk and transmission fee when applicable per above chart.

(2) Sewer Benefit Charges, both front foot fee and trunk and transmission fee, for existing single family residences may be paid in time payments of a minimum \$10.00 per quarter (\$40.00 per year) or larger payments if required in order that the debt will be paid in full in a maximum of twenty five (25) years. Such time payments will be referred to as Sewer Debt Service.

(3) Sewer Benefit Charges for all new residential construction shall be paid in full when making an application to connect and shall be paid prior to the issuance of a building permit by the Township.

(4) Sewer Benefit Charges, both front foot fee and trunk and transmission fee for industrial, commercial, churches, and schools may be paid on a quarterly basis within a ten (10) year period, such time payment charges will be referred to as Sewer Debt Service.

(5) Notwithstanding the foregoing provisions of Section 5F, Sewer Benefit Charges, (1), (2), (3) and (4), all Sewer Benefit Charges pursuant to prior Ordinances which are outstanding as of the effective date of this Ordinance shall continue in effect and be paid and governed by such prior Ordinances, and the same to such extent are hereby saved from repeal by the enactment of this Ordinance.

SPECIAL RATES

The Township Board may establish special charges or fees to meet special circumstances when in its judgment the application of the rates herein provided would be inequitable.

WATER & SEWER APPLICATIONS

All water and sewer applications, agreements and/or permits shall be arranged for and signed, and all tap, connection and benefit charges shall be paid prior to the issuance of the building permit unless otherwise stated above.

BILLING

Bills for debt service rates (where payable in installments) and sewage disposal use rates, shall be made as separate items on the water bills for those premises served by the sewers of the System which have connections to the water mains of the System, and separate bills for such rates and charges, for those applicable, shall be prepared for premises having no connection to the water mains.

Bills shall be rendered quarterly during each operating or fiscal year and shall represent charges for the three month period immediately preceding the date of rendering the bill. Said bills shall be mailed to the address of the premises, unless the Township is otherwise notified by the property owner of the premises, and shall be mailed sufficiently in advance of the next billing quarter so as to be received by the addressee no later than the first day of the new quarter, and said bills shall be due and payable within twenty (20) days from the date thereof, except when the twentieth (20th) day is a Saturday, Sunday or legal holiday, in which case the succeeding day which is not a Saturday, Sunday or legal holiday shall be the final day for payment without penalty, and for all bills not paid when due and payable, a penalty of ten per centum (10%) of the amount of such bill shall be added thereto.

ENFORCEMENT

Pursuant to Act 178 of the Public Acts of 1939, as amended, being Sections 123.161, et seq., C.L. '48, the charges for water service and sewage disposal prescribed by Ordinance XLIX, as amended, furnished to any premises shall be a lien thereon effective immediately upon the distribution of water to the premises supplied, but shall not be enforceable for more than 3 years thereafter. Any such charges delinquent for six (6) months or more shall be certified annually and prior to September 1st of each year by the official or officials in charge of collection thereof to the Township Supervisor, who shall enter the same upon the next tax roll against the premises to which such services shall have been rendered, and said charges shall be collected and said lien shall be enforced in the same manner as provided for the collection of taxes assessed upon such roll and the enforcement of the lien therefor; provided, that in all cases when a tenant is responsible for the payment of any such charge and the Township Board is so notified in writing, such notice to include a true copy of the legally executed lease of the affected premises, then no such charge shall become a lien against the said premises from and after the date of tendering an affidavit pursuant to the requirements of Section 123.165, C.L. '48, to the Township Supervisor of the Township or his authorized agent. In the event of filing of such notice, no further service shall be rendered to such premises until a cash deposit in the sum of not less than Fifty Dollars (\$50.00) shall have been made as security for the payment of such charges.

In addition to any other lawful enforcement methods, the payment of charges for water service to any premises may be enforced by the Township by discontinuing the water service to such premises from and after the date such charges are past due and payable and the payment of charges for sewage disposal service to any premises may be enforced by the Township by discontinuing either the water service or the sewage disposal service to such premises, or both, from and after the date such charges are past due and payable. Following such discontinuing of service to any premises, restoration and continuation of service shall not be made unless and until payment in full of all past due and payable charges, penalties and interest for water service and sewage disposal furnished to said premises shall have been paid in full, and in addition thereto, payment of the regular turn-on charge in the sum of Seven Dollars and Fifty Cents (\$7.50) shall be paid to the Township if service is restored and continued during regular working hours, or after regular working hours, the turn-on charge shall be in the sum of Twenty Five Dollars (\$25.00).

Section 6

A. Prohibition of Free Service

No free service shall be furnished by the System to any person, firm or corporation, public or private, or to any public agency or instrumentality, but service so furnished by the System shall be paid for in accordance with the foregoing schedule of rates, or any revision thereof, in compliance with the provisions of this Ordinance. The Township of Plymouth shall pay from its general funds, or from the proceeds of taxes which it is authorized to levy within constitutional limits, the water rates and sewage disposal rates herein set forth, for any connections serving said Township or any of its departments or agencies.

B. Interior Meters—Basements or Cellars

No building or structure shall be constructed, extended, repaired or altered in such a manner as to construct, extend, repair or alter a basement or cellar unless sufficient design and installation of plumbing systems are provided for water meter installation and location in that portion of the basement or cellar situated closest to the System main water lines and in an easily accessible, clean, dry space which will accommodate the water meter in a horizontal position by a combination of elbows, valve gates and templates between the inlet and the outlet pipes and which will provide a minimum of six inches (6") clearance between all portions of the water meter, templates and valve gates and the closest abutting portions of the water meter, templates and valve gates and the closest abutting immovable object. No building permit shall be issued by the Department of Building Inspection unless the building plans are in compliance with the foregoing requirements. No certificate of occupancy shall be issued by the Department of Building Inspection unless the completed building or structure is in compliance with the foregoing requirements and the water meter has been installed and is in operating condition and function.

C. Interior Meters—No Basement or Cellar

No building or structure shall be constructed, extended, repaired or altered, without a basement or cellar being a part thereof, unless sufficient design and installation of plumbing systems are provided for water meter installation and location in an easily accessible, clean, dry space impervious to freezing which will accommodate the water meter in a horizontal position by a combination of elbows, valve gates and templates between the inlet and the outlet pipes and which will provide a minimum of six inches (6") clearance between all portions of the water meter, templates and valve gates and the closest abutting immovable object. No building permit shall be issued by the Department of Building Inspection unless the building plans are in compliance with the foregoing requirements. No certificate of occupancy shall be issued by the Department of Building Inspection unless the completed building or structure is in compliance with the foregoing requirements and the water meter has been installed and is in operating condition and function.

D. Exterior Meter Readers

Whenever the Township Water and Sewer Department shall not have obtained three consecutive quarterly readings of a water meter located on any premises.

(Continued on page 4C)

(Continued from page 3C)

an outside meter reader shall be installed at actual cost to the property owner or tenant, as the case may be, and such charge shall be collected and subject to collection enforcement in the same manner as hereinbefore provided for water service and sewage disposal charges. provided, that consecutive readings shall mean actual readings of the water meter by the Township Water and Sewer Department, its employees and agents, or by the customer as evidenced by authorized return mail customer water meter reading cards received by the Township Water and Sewer Department in time for billing.

E. Disclaimer of Warranties and Liability

The Township of Plymouth, its agents and employees, exclude all implied warranties, warranties of merchantability, warranties of fitness and warranties of third persons as to the design, operation, function, maintenance or installation of the total or component parts of the water service and sewage disposal systems, and shall not be held liable for damages arising from or occurring as a result of the design, operation, function, maintenance or installation of the total or component parts of the water service and sewage disposal systems.

Section 7 The gross revenues of the System are hereby ordered to be set aside, as collected, into a separate depository account, designated as WATER SUPPLY AND SEWAGE DISPOSAL SYSTEM RECEIVING FUND, (hereinafter referred to as the "Receiving Fund"), and said revenues so deposited are pledged for the purpose of the following funds and shall be transferred from the Receiving Fund periodically in the manner and at the time hereinafter specified:

A. Operation & Maintenance Fund:

Out of the revenues in the Receiving Fund there shall first be set aside during each quarterly period into a separate depository account designated Operation & Maintenance Fund, a sum sufficient to provide for the payment of next quarter's current expenses of administration and operation of the System and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order. The Township Board, prior to the commencement of each operating year, shall adopt a budget covering the foregoing expenses for each year, and such total expenses shall not exceed the total amount specified in said budget, unless approved by the members of the Township Board.

B. Contract Payment Fund:

There shall next be established and maintained a separate depository account designated CONTRACT PAYMENT FUND, the moneys from time to time on deposit therein to be used for the purpose of making the fixed debt retirement payments required by the provisions of the Water or Sewer Contract.

All moneys remaining in the Receiving Fund after the foregoing provisions have been made for the requirements of the Operation and Maintenance fund, shall semi-annually on September 1st and March 1st of each year be set aside and transferred to the Contract Payment Fund, which said moneys shall then be used as follows and in the following priority:

First: For the fixed debt retirement payments due on October 1st and April 1st of each year, representing interest on the Water and Sewer Bonds due on October 1st and principal and interest due on April 1st of each year.

Second: To the establishment of a Contract Payment Reserve fund which shall be maintained as a separate account, until said fund shall equal the maximum principal and interest becoming due on the bonds in any future year. The moneys in said Contract Payment Reserve Fund shall be used solely for the payment of the fixed debt retirement payments to the extent of any deficiency in current revenues available therefor. Any moneys so used shall be replaced from the next revenues available therefor. Moneys in the Contract Payment Reserve Fund may be invested in obligations of the United States of America, and any income therefrom shall be credited to said fund.

Third: For advance payments, or redemption of Water and Sewer Bonds prior to maturity in accordance with the authorization contained in Section 6 of the County Ordinance and the provisions of the Water or Sewer Contract, at the written option of the Township, or, at the option of the Township Board for the construction of additional extensions and improvements to the System, or the payment of indebtedness incurred therefor.

Section 8

a. No connection shall be made to any of the water or sewer mains or lines of the System without a permit for the same having been issued by the Township Water & Sewer Department.

b. No connection shall be made to any of the sanitary sewer mains or lines of the System which shall cause by reason thereof the storm water or surface drainage waters to be introduced into said sanitary sewers.

c. The Township of Plymouth adopts by reference the Water Supply Cross Connection Rules of the Michigan Department of Public Health, being R 325 431 through R 325 440 of the Michigan Administrative Code and no connection or cross-connection shall be made to any of the water or sewer mains or lines of the System contrary to the provisions of said Rules.

d. Upon the Township Board determining that the character or quantity of any sewage emanating or outflowing from any building or premises shall impose an unreasonable burden upon the sanitary sewers of the System, the person, firm or corporation responsible therefor or owning or using said building or premises shall forthwith cease and desist from causing or permitting such sewage to be emptied into the System.

e. No person, firm or corporation shall cause or permit the happening or threatened occurrence of any act or the forbearance of any act which shall constitute a present or imminent danger to the transmission of the potable water or effluent by the System, including without limitation the property, appliances, instruments, structures and appurtenances thereof, and the violation of this provision shall constitute a public nuisance and be enjoined by a court of competent jurisdiction.

f. No person shall damage, deface or destroy any meter serving the System or any property of the System.

g. No person shall cause or permit to be introduced into the water supply of the System any contaminant or foreign substance or matter.

h. Agent and employees of the System shall have the right to enter at any reasonable time any premises or structures served or reasonably believed to be served by a connection to the water or sewer mains or lines of the System for the purpose of inspecting the mains, lines, connections or pipes, and on request, the owner, lessee or occupant of any such property or structure shall furnish any pertinent information regarding such mains, lines, connections or pipes. Refusal of such information or such access, when requested, shall constitute a violation of this Ordinance and a misdemeanor.

i. Any person found guilty of violating the provisions of this Ordinance shall be guilty of a misdemeanor and shall be subject to a fine in a sum not greater than Five Hundred Dollars (\$500.00), or imprisonment for a period of not more than ninety (90) days, or both such fine and imprisonment. Each day in which any such violation of this Ordinance shall occur or continue shall be deemed a separate violation.

Section 9 Nothing contained in this Ordinance shall be construed to prevent the Township from entering into additional contracts with the County under the provisions of Act 342, Public Acts of Michigan, 1939, as amended, or Act 185 of the Public Acts of 1957, or Act 94 of Public Acts of Michigan, as amended, for the acquisition, construction and financing of additional sewers or sewage disposal facilities or for water distribution improvements or facilities, and use of revenues derived from such additional projects for the payment of any obligations incurred thereby.

Section 10 The books and accounts of the System shall be kept in the manner provided by statute. Such books and accounts shall be audited not less than annually by a certified public accountant, designated by the Township Board, and a certified copy of such audit shall be filed with the Township Clerk and made available for public inspection during regular business hours of the office of the Township Clerk.

Section 11 If any clause, sentence, section, paragraph or part of this Ordinance, or the application thereof to any person, firm, corporation, legal entity or circumstance, shall be for any reason adjudged by a Court of competent jurisdiction to be unconstitutional or invalid, said judgement shall not effect, impair or invalidate the remainder of this Ordinance and the application of such provision to other persons, firms, corporations, legal entities or circumstances but said judgement shall be confined in its operation to the clause, sentence, section, paragraph or part of this Ordinance thereof directly involved in the case and controversy in which said judgement shall have been rendered and to the person, firm, corporation and circumstance then and there involved. It is hereby declared to be the legislative intent of this body that this Ordinance would have been adopted had such invalid or unconstitutional provision not been included in this Ordinance.

Section 12 Any prosecution arising from a violation of Ordinances repealed, herein, which prosecution may be pending at the time this Ordinance shall become effective, or any prosecution which may be commenced in the future for offenses committed before the effective date of this Ordinance may be instituted, tried and determined in accordance with such provisions of such ordinances in effect at the time of the commission of the offenses.

Section 13 Any ordinances of the Township of Plymouth heretofore adopted and conflicting or inconsistent herewith are hereby repealed as of the effective date hereof.

Section 14 The provisions of this Ordinance shall be, and the same hereby are, declared in effect and force on and after January 1, 1976.

Section 15 This Ordinance was duly adopted by the Township Board of Trustees of the Township of Plymouth at the regular meeting held on November 25, 1975, and ordered to be given publication in the manner prescribed by law.

The Stroller... Miracle in the snow

NOW THAT THE ground has been covered with the season's first snow it was only natural that the conversation at dinner would turn to a discussion of what kind of winter lay ahead and then it drifted into recalling some of the most severe winters we could remember.

Most of the younger diners felt that the 19-inch snowfall we had last Dec. 1 was the worst they ever experienced. Some of them even ventured the prediction that they possibly never would see anything worse than the foul-up of traffic and the slowing of living almost to a halt for a day or two.

Others went back about six years ago when a heavy snow brought drifts as high as five-and-six-feet in the open areas.

But to The Stroller none of them compared to the snowfalls we used to have when he was a youth living in the foothills of the mountains in Pennsylvania. Somehow or other, as he looks back, it seems that we had heavier snows and longer hard winters in those days.

Perhaps this is due to the fact that our area wasn't as heavily populated as it is today.

THERE WERE MORE wide-open spaces and the wind had a better chance to blow the fleecy white flakes into drifts that, to youngsters' eyes, seemed like snow mountains.

Our little town had a population of only 3,500. It hasn't much more today. It was only a mile from one end to the other and less than a half-mile wide. There were no other towns with a few miles and, worse yet, it was bounded on one side by the Lehigh River. So when the wind whirled and swirled we got the brunt of it.

As he recalled some of these winters for his younger listeners, The Stroller shuddered at the thought of the day he got stuck in a snow bank and but for a kindly passerby might have frozen to death. It becomes all the more horrible when he recalls that this misfortune struck him while enroute to Sunday School in the little white church on the hill.

It had been a beastly cold morning

to start with and but for the fact that attending Sunday School was a rich tradition he never would have allowed to venture out of doors.

Our family had a record of perfect attendance that would be most difficult to beat. For instance, Uncle Pete had a string of 62 years without a miss. And The Stroller had passed the 20-year mark when he left the Dutch country to continue his career in the Detroit area.

On this particular Sunday morning the snow was in drifts but not too high. It had snowed most of the night and the wind started up again as he departed for Sunday School.

HE HAD BEEN doing fine until he reached the old school house about half-way to the church. He was walking against the wind with his head down and didn't see what was ahead of him. He just kept plodding along.

Then, lifting his right foot to take another step he put it down in a drift from which he couldn't move. Try as he might he just couldn't get his feet free to move on.

It was a horrible moment. All sorts of thoughts were running through his mind. Yelling, it seemed, wouldn't do any good for he couldn't see anyone near. So, his fate was in the hands of providence. Strange as it seems now all he could think about was that his attendance record would be ended and all the former years go for naught.

Then suddenly, there came a helping hand. It seemed almost as though he had been sent to the rescue. He had come from the rear and it wasn't long until the rescue was completed, and the stranger not only lifted The Stroller's body out of the drifts but accompanied him to Sunday School. It was an unforgettable experience.

When the conversation gets around to cold, hard winters, The Stroller always is reminded of that Sunday morning when he was stuck in the drift. And he can't help smiling now over the fact that he extended his mark to 20 consecutive years of perfect attendance and upheld an old family tradition.

A flurry of activities

Snow means fun for state residents

Mother Nature usually serves up more than a generous helping of snow for winter fun in Michigan. It can range from an average of 180 inches at Sault Ste. Marie to 250 inches in the Copper Country and some 170 inches in the top third of the Lower Peninsula.

Now when you're blessed with that much snow in a season, you shovel it, plow it, blow it, occasionally curse it, but most of all—in Michigan—you ski and snowmobile and have a ball on it. Michigan has 59 well-developed winter sports areas that offer downhill skiers challenges and thrills equal to his, or her, skill. We have chair lifts, poma lifts, rope tows, T-bars and J-bars to whisk you to the top of the slopes and expert instructors to teach you how to schuss, traverse, stem christie and snowplow down with the best of them.

The world's highest artificial ski jump at Pine Mountain, near Iron Mountain, is training ground for past, present and future Olympic stars. Top international ski talent is attracted to Copper Peak, north of Ironwood, for the annual Ski Flying meet.

Distinct from ski jumping, the sport is called "flying" because for a breathless moment the skier is actually airborne, his back and arms providing lift as the wings of a bird. Copper Peak, incidentally, is the only ski flying jump in the western hemisphere.

FOR THOSE less daring but somewhat adventurous, Michigan has miles and miles and miles of cross-country trails through city, county and state parks and state forests. Many of the ski resorts offer cross-country instruction and rental equipment and have both marked and open trails around their areas.

Ranch Rudolf, near Traverse City,

and Birchwood Farms Lodge, near Harbor Springs, are sophisticated resorts exclusively for cross-country skiers and snowmobilers; complete with instruction, rental equipment, delightful accommodations and apres ski enjoyment.

CROSS-COUNTRY skiing (or ski touring) came to Michigan in the 1800's with the arrival of Finnish, Norwegian and Swedish immigrants to the Upper Peninsula. The long, thin, wooden skis were their most familiar mode of winter transportation. In recent years it has skyrocketed in popularity to a top spot in winter sports because it's fun, easy to learn and inexpensive.

Ski touring is sort of a cross between walking and ice skating, a series of kick-like steps and smooth glides. It's great exercise and a sport the whole family can enjoy together.

Children as young as 2 and 3 years old are able to master cross-country skiing almost as fast as their parents and grandparents.

Equipment is quite different from that used in downhill or Alpine skiing. Touring skis are long and slender and light in weight. Boots are light, soft and comfortable, and poles (usually bamboo) have an entirely different flex pattern. And, you can equip yourself for the trail (skis, boots and poles) for \$100 or less.

As for clothing, you probably have warm, lightweight, wind-resistant articles in your closet that will do the job nicely.

FROM THE first snowfall of the season until the last inch melts in spring, cross-country skiers can "do their thing." As little as two or three inches of snow on the trails is enough for an exhilarating cross-country trek.

The "zinger" in the sport is the

proper waxing of the skis for specific snow conditions. The right wax, and wax treatment, will allow skis to slide smoothly on the level and downhill, but stick to the snow on an uphill climb.

Then there's snowmobiling, another favorite family winter sport in Michigan. In addition to 160 plus snowmobiling areas, a number of ski resorts have marked trails for snowmobilers. From December through March, snowmobile races and safaris dominate the state's calendar of events.

The Thunder Bay 250 Race at Alpena, TC-250 at Traverse City and the I-500 (Grand-daddy of snowmobile races) at Sault Ste. Marie, attract thousands of spectators and hundreds of race drivers from all over the country.

Family-style, or as an individual recreation, snowmobiling is an activity that takes you away from city slush into the crisp, white beauty of winter's wonderland. Like any other sport or recreation, snowmobiling requires knowledge of the proper operation of the machine, good judgment, good manners and good safety habits.

THE ACTIVITIES created by Michigan's annual "snow job" don't stop there. Ice fishing, for example, presents an exciting challenge to the ardent angler and a tasty reward of perch, bluegill, walleye or trout.

This sport inspired "Tip-Up-Town U.S.A.," held annually at Houghton Lake in Roscommon County. It's a jamboree of ice fishing, snowmobiling, special attractions and just plain fun for all comers, all ages.

Tip-Up-Towns, so-called, spring up throughout the season on most Michigan lakes. The name comes from tip-up gear (devices equipped with reels and flags used mostly for larger fish) and ice shanties that protect the fish-

erman from the frigid elements.

Shanties can be small enough for one or large enough to cozy small groups, simple or elaborately equipped and may be moved on the ice to where the fish are biting. Shanties are available for rent and usually include ice fishing tackle and bait and fuel to keep you warm.

To see a team of trained sled dogs in action is a thrill all its own. The clack of sled runners on packed snow, the encouraging whistle or shout of "Hi!" from the driver and the excited yelp of the lead dog is like an episode straight from the pages of Jack London.

RACES ARE scheduled almost every weekend in cities and towns like Traverse City, Kalkaska, Hart, Cadillac and elsewhere throughout the state. The International Sled Dog Races, held annually at Kalkaska, attracts over 125 teams from various parts of North America and Alaska and thousands of enthusiastic spectators.

The love and understanding between the musher and his dogs, the beauty of a handsome team of animals working in unison, the tension and excitement as they near the finish line is a captivating experience that makes for a great family outing.

Then, of course, there's ice skating, tobogganing, old-fashioned sleigh rides; or how about a snowshoe hike, just for the old-fashioned fun of it. Get to "snow" Michigan this winter, and discover all the frosty fun you may have been missing.

For a listing of Michigan ski areas and snowmobile trails, write for a free copy of the Michigan Winter Sports Guide from: Travel Bureau, Michigan Department of Commerce, 300 South Capitol Avenue, Lansing, 48913.

Consumer attitudes are rising...slowly

A broad-based recovery in consumer confidence is still under way, but latest findings by the University of Michigan Survey Research Center (SRC) confirm earlier indicators that the recovery is slow rather than fast.

For the first time since late-1972, respondents in the August-September SRC survey of consumer attitudes reported having heard more good news about the economy than bad news.

A majority of consumers say that

the economy has already begun to recover or will do so this fall. Pessimism about business conditions has been substantially reduced during the first three quarters of 1975.

THE SRC index of consumer sentiment stands at 75.8, less than three points higher than in May. The improvement in the index was much slower between the second and third quarters of 1975 than between the first and second quarters.

Survey director Jay Schmiedekamp and survey founder George Katona explain that "expectations about inflation are considerably less optimistic than in May. There has been some resurgence of inflationary psychology, whereby some consumers say that if you need to buy, now is a good time before prices go up. However, a number of survey findings suggest that these attitudes are not nearly so intense as in 1974."

There has been some increase in satisfaction with income trends and with savings, especially among respondents with incomes of \$15,000 and over, they report. "However, heightened fears of inflation have somewhat dampened consumers' optimism about future improvement. Considering both past and future changes together, the proportion reporting a favorable trend in their personal financial situation is unchanged from May."

Wins color TV

Eugene J. Kafila of Plymouth has won a 19-inch color television set for the nearest estimate of the number of pennies in a piggy bank at National Bank of Detroit's new branch at Rawsonville and I-94 in Van Buren Township. Kafila, who owns a gas station in Van Buren, guessed the bank contained 19,323 pennies—only 131 short of the actual total.

Triumph over winter: get your car ready

Knowing what to expect, and then expecting the worst, is not being overly pessimistic when it comes to winter travel—at least that's the contention of Douglas M. Ferguson, director of safety services for Nationwide Insurance Co.

Ferguson's reasoning is that being forewarned is the first step in being prepared; and with automobile travel to winter sports areas expected to reach an all-time high this winter, the need for proper precautions is more crucial than ever before.

"In spite of current economic conditions and the high cost of gasoline, motorists are driving to new and ever-more remote parts of the country seeking winter sports areas," Ferguson pointed out. "Actually, they're looking for the conditions (snow and ice) that make any auto trip treacherous."

Ferguson has firsthand knowledge of winter's deadly tricks. He is vice-chairman of the National Safety Council's Committee on Winter Driving Hazards and has participated in many of the committee's annual winter driving test programs. Based on these experiences, and those of his fellow skid-testers, he offers these suggestions for safer, trouble-free driving:

- Before you hit the road:
 - Have your car mechanic-checked to be sure it is in first-class mechanical condition—brakes, lights, electrical system, anti-freeze, heater-defroster, windshield wipers and washers; the works.
 - Equip your car with the proper tires with good treads. Snow tires are helpful for pulling through snow. Studded snow tires are better (where permitted) for added traction on icy pavements.
 - For severe snow and ice conditions, be sure your trunk contains a good set of reinforced tire chains and that you are prepared to use them.
- The "emergency kit" in your trunk should also include a shovel, a container of sand or rock salt, a tow chain, battery booster cables, and emergency flares and lights.
- When you're on the road:
 - Keep your windshield, windows and rear-view mirrors clear at all times. Replace worn, streaking wiper blades immediately. Make sure your windshield washers contain an adequate anti-freeze solution.
 - Clean head and tail lights regularly. A barely visible film on lenses can decrease lighting power by as much as 25 per cent.
 - Increase distances between you and

cars ahead. Give yourself ample room for maneuvering or stopping.

- Pump brakes to slow or stop. This technique keeps wheels rolling and helps maintain steering control.
- When driving on winter-slick roads, get the feel of the road. Accelerate carefully or tap your brakes while away from traffic. See if the wheels spin or skid. If either occurs, reduce your speed.
- If a skid starts, steer in the direction of the skid—steer left if the rear skids left, steer right if the rear skids right.
- Buckle your seat belt and shoulder harness. Be sure your passengers buckle up as well.
- Pulling a trailer? Remember: icy or snow-clogged roads plus a trailer whipping behind your car compounds normal winter driving problems. Adjust your driving even more.

Ferguson concluded: "Be forewarned. Study routes in advance. Check weather reports. It's sensible to wait out any threatening storm."

Show committee adds 2 dealers

Two prominent Detroit area auto dealers and a Detroit Auto Dealers Association (DADA) executive were named to the 1976 Detroit Auto Show committee today by Jerry Bielfield and Hugh McVeigh, co-chairmen of the committee and Detroit auto dealers.

- Named to the committee were:
- Leslie Fiske, president of Fiske Motors Ltd., 464 S. Woodward Ave., Birmingham.
 - Roland Rinke, president of Rinke Pontiac, Inc.
 - Boyce Tope, general manager of the Detroit Auto Dealers Association and general manager of the Detroit Auto Show.
- The '76 Detroit Auto Show, Jan. 10 through 18, Cobo Hall, Detroit, will feature new domestic and imported cars and motor homes in exhibit areas prepared by the auto manufacturers and manned by salesmen from Detroit area automobile dealerships.
- This will be the 60th Auto Show for DADA, an organization of 259 new car dealers located throughout Wayne, Oakland and Macomb counties.

Orange Blossom
Capri by

The 18K gold arms of this Orange Blossom ring embrace a single diamond as brilliant as a Capri sunrise. Could there possibly be a more fitting symbol of your love than this unusual ring?

We think not. And we know you'll find no more fitting symbol of security than Orange Blossom's unique guarantee: if your ring is lost, stolen or damaged during the first year of purchase, we'll replace it without charge. We your love, an Orange Blossom diamond is truly forever.
